

# DELUXE SURVIVOR SLING

P/N: AC01-070-00-00

## FEATURES

- Stainless steel hardware (snap hook, adjuster, quick-release buckle, V-rings)
- Adjustable chest and seat strap for maximum security

## TECHNICAL

- Weight: 4 lbs. (1.8 kg.)
- Rated load: 450 lbs. (205 kg.)
- Service life: Up to 10 years from manufacture date

## MATERIAL

- Durable closed cell foam encased in hi-vis yellow heavy-duty nylon cover
- MIL-W-4088 nylon webbing main load-bearing straps

## ABOUT

The Deluxe Survivor Sling, was originally designed for the Japanese Coast Guard. It provides a quick, safe means of hoisting or lifting uninjured persons aerial, ground-based and marine rescue. The DSS is widely used in rescue work from a helicopter over water or land, and for inserting or extracting personnel from places that helicopters cannot land, such as lowering a marine pilot onto a ship.

- Cost-effective, flexible evacuation option for aerial or ground-based rescue
- Quick and easy to put on for rapid evacuation
- Encompasses the torso to physically prevent a person from falling out—safe to use with an unconscious person
- Handles along edges of harness provide rescue personnel with positive control of victim
- Tactical black and military olive green versions available
